

# HITESH KUMAR JAGARAPU

Full Stack Developer

jhkhithu666@gmail.com • <https://www.linkedin.com/in/contacthiteshkumar> • Bengaluru

## Summary

I am a great fit for this role because I have hands-on experience in building scalable full-stack applications using React for the frontend, FastAPI for backend APIs, and MySQL for database management. I have worked on projects that involved designing RESTful APIs, implementing authentication, optimizing queries, and creating responsive UIs.

My strength lies in bridging frontend and backend seamlessly, ensuring smooth data flow, and delivering user-friendly solutions. Along with my technical skills, I am quick to learn, detail-oriented, and motivated to contribute to developing high-quality, efficient, and reliable applications that align with business needs.

## Skills

Technical Skills: React • FastAPI • MySQL • Bootstrap • JavaScript • Node.js • Express • Python • AWS Cloud Services

Tools: Git • Vs Code

Soft Skills: Team work • Problem-solving • Adaptability

## Experience

Sonata Software Limited

Bengaluru, Karnataka, India

Leading Modernization Engineering Company

2024 - Present

- Built and deployed a full-stack web application using React, FastAPI, and MySQL, improving user experience with a responsive and modern UI.
- Designed and optimized RESTful APIs in FastAPI, reducing average API response time by 25%.
- Implemented secure user authentication and authorization, enhancing data protection and compliance with best practices.
- Built a weather forecast web app with city search, infinite scroll, and autocomplete, helping users access real-time data quickly.
- Quickly learned FastAPI and applied it in live projects to build scalable backend systems.
- Adapted to new tools and deployment platforms like Netlify and Railway for hosting full-stack applications.

## Education

Ramachandra College of Engineering

2020 - 2023

Bachelor of technology - Computer Science and Engineering

Nova's Institute of technology

2014 - 2020

Diploma - Mechanical Engineering

Municipal corporation high school

2013 - 2015

Secondary School Certificate

## Projects

Jobby

<https://hiteshjobby.ccbp.tech/>

Developed a comprehensive job search solution, Jobby App.

- Designed pages for Login, Home, Jobs, and Job item details with React components and form inputs.
- Secured user data with JWT tokens, REST API calls, and local storage.
- Implemented protected routes and persisted login state with React Router and local storage.

ToDo App

<https://hiteshtodo.ccbp.tech/>

A task management solution, designed to make life easier.

- Streamlined task management through a combination of HTML, CSS, and Bootstrap for an intuitive interface.
- Seamless CRUD operations through JavaScript event listeners and dynamic UI updates.
- Secure task persistence with local storage methods, ensuring that your tasks are always available.

Portfolio website

Developed a responsive personal portfolio website using React to showcase projects, skills, and experience.

- Showcases my projects, skills, and work experience in a professional and organized manner.
- Provides a responsive and user-friendly interface for seamless navigation on all devices.
- Optimized for fast loading and smooth performance.
- Highlights technical expertise and project accomplishments effectively.
- Serves as a central hub for potential employers or clients to view my work.
